NETWORK THERMOSTAT ANNOUNCES THE X-SERIES THERMOSTATS WITH BACNET-IP NOW SHIPPING

Grapevine, TX, 05/11/2022– Network Thermostat™, a leading provider of connected thermostat solutions for facility energy management and building automation, announced today That all X-Series thermostats with BACnet-IP (Wi-Fi and Ethernet) support are now shipping.

> *"This product enhancement makes it even easier for building automation contractors to integrate NetX solutions into their BACnet systems, blending the commercial IoT world with the Building Automation market."* **Jerry Drew, Network Thermostat founder, and CEO**

The Modern touchscreen X5 and X7 Wi-Fi and Ethernet thermostats deliver unprecedented flexibility for Building Automation control and BAS platform integrations at multiple levels. The NetX CloudConnect platform provides a state-of-the-art user interface via the cloud and management of thousands of devices on any smart device. The addition of BACnet-IP for all of NetX's Wi-Fi and Ethernet thermostats provides simultaneous control via BACnet central plant systems delivering the convenience of Smart Device Access with the requirements of BACnet control and management.   With nearly 300 BACnet objects available, including simple to implement NetX 7-Day and calendar-based schedules, NetX continues to lead the way in commercial IoT HVAC control.

About Network Thermostat

At NetX, our mission is to provide significant energy-saving solutions to our customers through the use of communicating network thermostats. Headquartered in Grapevine, Texas, with more than 25 years of design experience for connected devices including IP thermostats, wireless thermostats, Wi-Fi thermostats, and Ethernet thermostats, NetX designs and manufactures cost-effective electronic and software products meeting the needs for on-site and remote-location control for the heating, ventilation, and air conditioning (HVAC) market. NetX's products place simple, user-friendly tools in the hands of institutional, commercial, multi-family, and light industrial customers. Since 1995, Network Thermostat has been recognized as an industry pioneer and leader in cost-effective networkable HVAC solutions.

We are an industry-recognized leader in a newly emerging market segment; networkable, smart thermostats and systems.
